

Mythic Gems FAQ

Do you start with 5 Action Tokens?

- No, you start with 0 and can collect up to 5 total Action Tokens.

After playing a shield, if your movement finishes on an Action Token, do you activate it?

- No, but if someone else activates it while you are still on it, you partake in the effect.

If you activate a spider web, but still touch the FINISH spot during your roll do you win?

- Yes, you were the first Explorer to reach the FINISH spot and the game ends before the Action Token would take you back to that spot.

If I activate a board rearrange Action Token do I get to move the Environment Boards or does the person who placed the Action Token get to rearrange the Environment Boards.

- The person who activated the Action Token rearranges the Environment Boards.

If I activate a board rearrange Action Token what are the restrictions for aligning the Environment Boards?

- It is required that the single arrow from the Start Board must align with a single arrow from any Environment Board, the double arrows from the Finish Board must align with both arrows from any Environment Board, and the Environment Boards should have both sets of bridges touching both sets of bridges from another Environment Board. As a house rule, you can choose to align a single bridge on one Environment Board with a single bridge on another Environment Board, but this could affect the length of play.

What happens if I activate a spider web and the path I want to take has me pass over an active mud trap?

- You would be stuck in the mud trap like you landed on it during normal movement because the trap was already activated.
